

Projects & Field Activities

Generated: 2026-06-25 | Entries: 5

Q: Please provide the number of field projects in 2020 and 2021 and how many are planned for 2022?

All entities, please provide the relevant information in the excel tables provided
DESA does not undertake field projects.

Q: For 2019 and 2020, please provide information on the number of requests for projects and the number of approved projects

All entities, please provide the requested information in the excel spreadsheet provided. The assumption here is that the information is related to all types of responses and not specifically for field projects.

DESA: DESA receives periodically requests from Member States for technical assistance. All official requests that are received from Member States, UN RCOs, regional commissions, UN agencies and through the intergovernmental process are recorded in a central database. The requests that are in line with UN DESA's mandate, offerings and available resources are answered through workshops, advisory services, etc. which may lead to full pledged projects if needed. In Annex Q48, you will find the overall number of requests received from the above-mentioned entities for DESA support as well as the number of responses approved for requests. Please note that the repository is only complete for requests from 2020 onwards, where all RPTC activities require a record of the request in the demand repository to allow funding of the response. DESA has no readily available data for 2019 and submits the records for 2020 ad 2021.

For more details, please refer to Annex Q48

Q: Please provide data and info about the Seminars, workshops, advisory, etc, and field projects that are funded under RPTC budget by implementing entities for 2020,2021 and proposed for 2022?

All entities, please provide the requested information in the excel spreadsheet provided. For 2022, we will have a simplified table which reflects that fact that the RPTC is a response to request from Member States and that the relevant information is just an estimate of requirements, not a plan.

DESA: Q50 table submitted

Online advisory services are not captured on this table as we do not have a systematic approach to collecting this data yet.
